

Town of Canterbury

Kinne Road Solid Waste Transfer Station

“Lower Level” Asphalt bid specs:

There are 3 areas to be installed noted on the map plan as “Phase 1”, “Phase 2”, and “Phase 3.” The final surface will be 4” thick bituminous concrete pavement constructed with two equal thickness courses of 2” each. The project is planned to have the three phases installed independently over a one-week period.

The base 2” layer will be constructed with Class I Bituminous concrete. The overlay 2” layer will be constructed of Class II bituminous concrete.

Inspection and material testing and verification will be conducted per standard D.O.T. guidelines.

Please coordinate site visits if necessary with the Canterbury First Selectmen’s office, 1 Municipal Drive, Canterbury, CT 06331, 860-546-9693.
